DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group II, claims 10-13, in Paper No. 14 is acknowledged. The traversal is on the ground(s) that search for each of the Groups would be substantially the same. This is not found persuasive because the different classification alone is a prima facie showing of distinction between the Groups. Moreover, even though the preamble includes the features as Applicant argues, the blade is not explicitly recited in the elected Group, and therefore, not essential to the subject matter of the elected Group.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 1-9 and 14-18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected Groups, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 14.

Information Disclosure Statement

3. Receipt is acknowledged of the IDS filed as Paper Nos. 7, 9, 11, and 12. However, some of the references have been crossed out due to the fact that they are duplicate citations.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Crouse.

Crouse discloses a trimming apparatus comprising all the elements claimed including, inter alia, a scrap receiver (e.g. 18) and a nozzle (Fig. 3). See whole patent.
